Red Gold Canned Tomatoes ARE Always Tastier than Produce Tomatoes

Lighten Up Your Meals

Spring is here. Whether you are looking for ways to keep the kids entertained for the next few months, or preparing for an upcoming vacation, this time of year marks a need for fast, easy to prepare meals, that offer generous nutritionally-packed servings –no stove or oven required. Salads to the rescue!

Time is of the essence. If you find yourself short on time, salads can offer a great way to get you in and out of the kitchen in no time. It's now easier than ever to prepare tasty salads at home with the help of convenient offerings in the produce department of your local store. Salads can be easily put together using pre-washed salad greens and a can of Red Gold Tomatoes. Simply drain and rinse the can of diced tomatoes and add to your salad for that fresh from the vine tomato flavor.

Tip: Keep rewashed salad greens fresh by placing a paper towel inside the container once opened. The towel draws in the moisture that often leads to the lettuce becoming brown and limp.
